EDUCATION

Master of Computer Application

International Institute of Professional Studies,Indore

July 2022 - March 2024

8.2 CGPA

Bachelor of Computer Application

International Institute of Professional Studies,Indore

July 2019 - March 2022

8.2 CGPA

WORK EXPERIENCE

SDE-Intern | Linux Socials

Remote | May 2023 - Jun 2023

- Worked under DEVOPS team and learned about **AWS** , **Dockers** , **HLD** and Linux Networking.
- **Automated** the Pipeline using BOTO3 which scales EC2 instances according to the requirement specs.
- Added different types of **Load Balancers** at different stages of the Pipeline to handle the traffic.
- Containerized the Applications and tested them at production environment with the help of **docker**s.

TECHNICAL SKILLS

Programming Languages: **C++**, Java(Basics),Python(Basics),JavaScript

Data Structures: Array,LinkedList,Tree,String,Graphs,Stack,Queue,Hashing,**DP**

Tools / Platforms: **AWS**, **Dockers**,Kubernetes, Containerisation, Orchestration, Git/Github.

Databases: **MySQL**, Amazon(RDS & Dynamo-DB),Mongo-DB(Basics).

Libraries/Frameworks: React, BOTO3,TextBlob,Flask(Basics).

Other Tools and Tech: **System Design**(HLD),Linux,Ubuntu,Scripting,Automation,Networking.

PROJECTS

Twitter Sentiment Analysis | [Link](#)

Python, Javascript, Flask, HTML/CSS

- Developed a user input based web portal to fetch the sentiments of the Tweets via **Twitter API**.
- Implemented basic Machine Learning algorithm using **polarity** provided by Text Blob Library.
- Designed and implemented searching platform for Tweets both Phrase-Level and Sentence-Level.

Little Lemon Website | [Link](#)

AWS, Javascript, React, BootStrap

- Developed a responsive website, and deployed it to **AWS** , added multiple servers and Load Balancers.
- Implemented API integration for table booking functionality, allowing customers to make reservations.
- Utilized React components and state management to create a interactive user interface.

ACHIEVEMENTS

Solved more than **750+** Data Structures and Algorithms problems across platforms.

Consistently solved 2-3 problems daily with a max streak of **400 days** on Leetcode and earned 15 Badges

Meta Professional Certificate in JavaScript with Grade of 98% [LINK](#).

Qualified for final round in **Microsoft** Github Copilot **HackThon**.

Secured **AIR** of **47** respectively in LeetCode Weekly Challenge in the month of Jan among 22k+ participants

Ranked in **top 10** Coders at Institutional Level at GeeksforGeeks

CODING PROFILES

Leetcode :- **Rating: 1712** | 560+ Questions | **Earned 8 Badges** | 30+ Contests.

GeeksforGeeks :- 250+ Questions | **Score : 800+** | **Ranked in Top 15** Coders at Institutional Level.

Codeforces :- Rating: 1125 | 30+ Questions | 15+ Contests | Pupil(Level)

Codechef :- Rating: 1540 | 3 Stars | 100+ Questions | 15+ Contests.

HackerRank :- Rank: 1200 | 100+ Questions | 5 Stars |5 Badges |2 Certificates.
